

Chair and Faculty positions, The Trivedi School of Biosciences, Ashoka University, India.

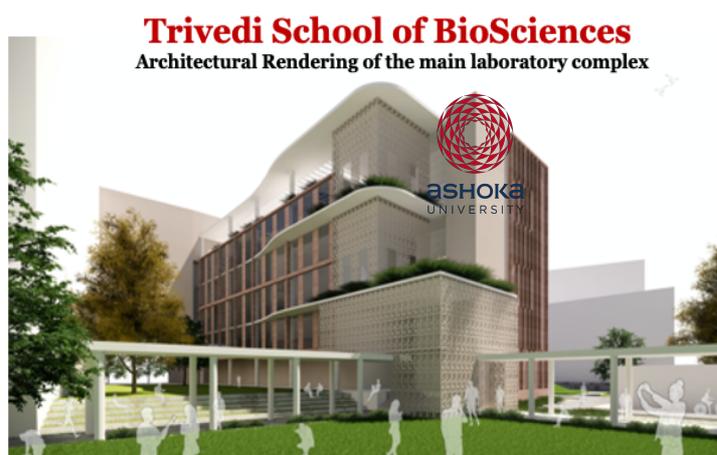

Trivedi School of Biosciences at Ashoka University is seeking exceptionally talented researchers to establish a pioneering biology program in India. Candidates of any nationality, who have a demonstrated ability to conduct high-quality independent research, with strong publication record and possess excellent mentoring skills to nurture young faculty and students are strongly encouraged to apply.

Ashoka is India's first Liberal Arts Research University, located near New Delhi, where humanities and social sciences are seamlessly integrated with natural and mathematical sciences. It is recognized as a leading University in India that attracts best academicians, straddling all domains of human creativity in sciences, humanities and social sciences. Recently, Ashoka has established Trivedi School of Biosciences with the help of a generous donation from Trivedi Family Foundation. It aims to put India on the world map of advanced research in synthetic biology, data science and diverse emerging technologies in biological sciences. The School recognises the importance of contributing significantly to both discovery science and applications towards addressing various societal problems. The school is advised by a group of scientists who are global leaders in their respective areas of research.

For more information on Ashoka University and its Biology Program, please click the following links: <https://www.ashoka.edu.in/>; <https://ashoka.edu.in/biology>

Selected scientists will be appointed at an appropriate level of faculty positions with a very competitive remuneration package and the facility of on-campus housing. State-of-the-art research infrastructure, flexible and generous seed funding will be provided to enable the Chair and other faculty of the program to initiate their research soon after the joining. For applicants of Chair and Senior faculty positions, Ashoka is also open to joint appointments with their current institutes such that they can spend part of their time in Ashoka to help establishing the program.

Interested applicants may send their detailed curriculum vitae along with a description of their vision for research on emerging areas of biology to faculty.recruitment@ashoka.edu.in. For queries: contact Dean (Research) at dean.research@ashoka.edu.in.

Ashoka is committed towards creating a diverse environment. Women candidates are strongly encouraged to apply.
